Course Description

The proactive and reactive migration of peoples within countries and across national boundaries constitutes one of the fundamental challenges of international relations and domestic politics in the 21st Century. In preparation for these challenges, this course explores recent population movements from a multidisciplinary perspective. Geographical coverage centers on Asia, Africa, North America, and Europe. Attention will be devoted to transnationalism and associated economic, social, and political transformations. In addition, we will explore key dimensions of transmigration and connect transmigration, transnational competence, global health, and sustainable development.

Course Objectives

Students should develop awareness of global migration patterns, pressures, processes, and implications; understanding of how population movements are related to the emergence of a world mobility system that involves an expanding flow of people across national boundaries in ways that challenge the geopolitical framework of nation states and are facilitated by transnational competence; the ability to connect transmigration with global health and sustainable development; familiarity with the arguments and issues behind current debates and conflicts over policies that impact migration, health, and development; and enhanced individual and group analytic and problem-solving skills.

Course Conduct

Class sessions will emphasize student presentations, questions, contributions, and involvement based upon the assigned reading about the topics under discussion.

Course Requirements and Assessment

3-page (B&R) film review (due 3 Oct.): 20%
Debate (1): 10%
Group problem solving: 10%
Discussion facilitator performance (1): 10%
Individual research project (due 5 Dec.): 30%
Class/discussion participation, including presentation of research project: 20%

Late papers will be penalized by one + or – grade (e.g., from B+ to B) through 7 December, by an additional + or – between 10 December and 12 December, and by an additional + or – for each day that passes without submission after 12 December. For credit/no-credit grading, students must attain an overall grade of D- to receive a “CR.” Reported final grades will reflect pluses and minuses. See the Catalog’s policy on incompletes, disability accommodations, and plagiarism. The instructor will deny late-drop petitions (after the 31st day of instruction).

Individual research projects due

5 Dec. & 12 Dec. (5:30-7:30) Individual research-project presentations
**PSCI 400**

Students taking PSCI 400 concurrently with this course must attend a special class on professional writing led by the instructor (TBA). The 3-page double-spaced individual review for this class will be graded for clarity of argument and correctness of technical writing and returned with comments for revision. Students are required to revise and resubmit their review as often as necessary until all corrections are made and understood. The individual-project paper will be no more than 20 double-spaced pages of text (not counting the bibliography). The instructor will meet with and approve each student’s topical selections and provide guidance on how to proceed. Citations of sources used can be included in parenthetical text notes tied to the bibliography or in footnotes/endnotes and a bibliography.

This syllabus is presented as a general guide to the course that is subject to amendment or deviation.

All students must practice academic honesty. Academic misconduct is subject to an academic penalty by the course instructor and/or disciplinary sanction by the University. All students need to be familiar with the Student Conduct Code. The Code is available for review online at [http://www.umt.edu/SA/VPSA/index.cfm/page/1321](http://www.umt.edu/SA/VPSA/index.cfm/page/1321) See the University of Montana Catalog’s policy on incompletes and plagiarism. The instructor will deny late-drop petitions (after the 31st day of instruction).

**Accessibility**

The University of Montana assures equal access to instruction by supporting collaboration between students with disabilities, instructors, and Disability Services for Students. If you have a disability that requires an accommodation, contact me at the beginning of the semester so that proper accommodations can be provided. Please contact Disability Services for Students at [http://life.umt.edu/dss/](http://life.umt.edu/dss/) if you have questions, or call Disability Services for Students (DSS) for voice/text at 406.243.2243.
